

Welcome to the Finnish Craft Beer Association

About Us

The Finnish Craft Beer Association is a proud consortium founded by five exceptional, though fictional, Finnish craft beer breweries. United by our passion for brewing excellence, innovation, and authenticity, we strive to promote the Finnish craft beer industry, advance the art of brewing, and advocate for the highest standards in craft beer production. Together, we organize events, host beer-tasting sessions, support each other's brewing endeavors, and actively engage with and educate our communities about the unique world of craft beer.
